WASTE OIL TRAILER

EXPERIENCE THAT'S DRIVING A NEW ERA IN VEHICLE ENGINEERING

Shermac's Waste Oil Trailers are purpose-engineered to provide an efficient and environmentally responsible solution for managing waste oil and other fluids in demanding work environments.

Designed with the needs of mining operations in mind, these trailers combine robust construction, innovative features, and industry-leading compliance to deliver exceptional performance on-site.

TOUGH, SMART, SAFE

Environmentally Responsible Design

Waste oil management is not just a logistical challenge—it's also an environmental responsibility. Shermac Waste Oil Trailers are designed to help your operation meet stringent environmental regulations while minimizing the risk of leaks, spills, and contamination. With advanced spill control measures and secure storage systems, you can be confident that your operation is contributing to a safer, greener future.

Perfect for Remote Operations

In remote and off-road environments, reliability is essential. Shermac Waste Oil Trailers are built to mine-spec standards, making them ideal for operations in isolated locations. Their robust construction, easy mobility, and dependable systems ensure they perform reliably wherever they're needed.

A Trusted Partner in Equipment Solutions

Choosing Shermac means partnering with an Australian company dedicated to quality, innovation, and customer satisfaction. All our products are manufactured in our ISO 9001-certified facilities, ensuring they meet the highest standards of craftsmanship and performance. With a team of experts ready to provide ongoing support, Shermac is committed to delivering solutions that work as hard as you do.

PERFORMANCE. RELIABILITY. FLEXIBILITY.

Durability You Can Rely On:

Shermac Waste Oil Trailers are constructed with heavy-duty materials and a reinforced chassis, ensuring they withstand the rigors of daily use in even the harshest conditions. Whether it's extreme weather or rugged terrain, these trailers are built to last.

Advanced Pumping and Storage Systems:

Each trailer is equipped with high-performance pumping systems that allow for quick and safe waste oil collection and transfer.

Designed with Safety in Mind:

Safety is a priority at Shermac. Our waste oil trailers feature user-friendly controls, spill containment systems, and non-slip work surfaces, all of which help protect your team and the environment.

“

Our new service trailer is an absolute winner, with field maintenance enjoying the reduced scheduled service times as a result of a well- prepared unit

“

The trailers make us look more professional, and because they have everything on board, it allows the team to complete services quickly, safely and without mess

“

It's a much cleaner and easier way to work. Environmentally, this solution reduces the risk of spillage and contamination that may occur when working out of drums

“

Thank you and your team for an outstanding job on the trailer. I am very impressed with the finish and set up of the trailer. It will be a head turner where ever I go from now on
